REMOTE LEARNING AND 24/7 ACCESS TO COURSES

Our Learning Management Systems (LMS) provide remote learningprograms that can be accessed from anywhere in the world for highly effective and convenient learning. Through our reliable online platform and the latest innovations in education technology, we offer 24/7 access to courses of all educational disciplines and levels.

ADVANCED TECHNOLOGY FOR OPTIMIZED LEARNING

American Educational Technology (AMET) provides students with sophisticated andinnovative tools to help them achieve their educational goals. Using the latest advances inartificial intelligence (AI) technology, Virtual Reality (VR), and xAPI,learning becomes more engaging for an Internet Generation bored with the traditional teacher-centered way of instruction

ENGLISH LANGUAGE LEARNING

AMET offers more than 30 English language courses throughout 5 levels on our LMS. We implement Adaptive Learning and other techniques of differentiation which allow learners to learn confidently at their own pace.

BLENDED LEARNING APPROACH

AMET'S Learning Management System (LMS) facilitates the Blended Learning approach by providing students with a comprehensive self-study platform filled with engaging exercises, assignments, and gamification that reinforce what they have learned during face to face instruction.

CYBERSECURITY

Cybersecurity is of the highest priority in all our systems. AMET utilizes industry standard best practices to ensure the protection of client personal data and information.

TEST TAKING SECURITY

AMET utilizes a number of industry standard features that mitigate cheating on online exams. We guarantee that every online exam given on our systems will be secure and properly proctored

LMS AND WEB CAM BRANDING

With our systems, there is no need to return to the brick and mortar classroom. AMET builds elite LMS platforms that are sustainable and nullifies any need to return to the physical classroom. We brand and customize our systems based on the need of the client. In addition, AMET will create and brand a functional web cam for our clients to use along side the LMS, enabling a fully sustainable on line learning platform.
